Animal Explore: Pre-Activity

Dear Classroom Teacher:

Please allow your students to play this game either individually or as a class on animal classification if time permits.

This interactive game allows students to classify mammals, reptiles, amphibians, birds, and fish according to their traits.

Thank you,

MIS staff

Animal Explore: Post-Activity

For the following chart, choose your favorite animal that you saw in the presentation. Try to fill in as many of the boxes as you can from memory. Then, check your answers with your teacher or using the internet or books.
